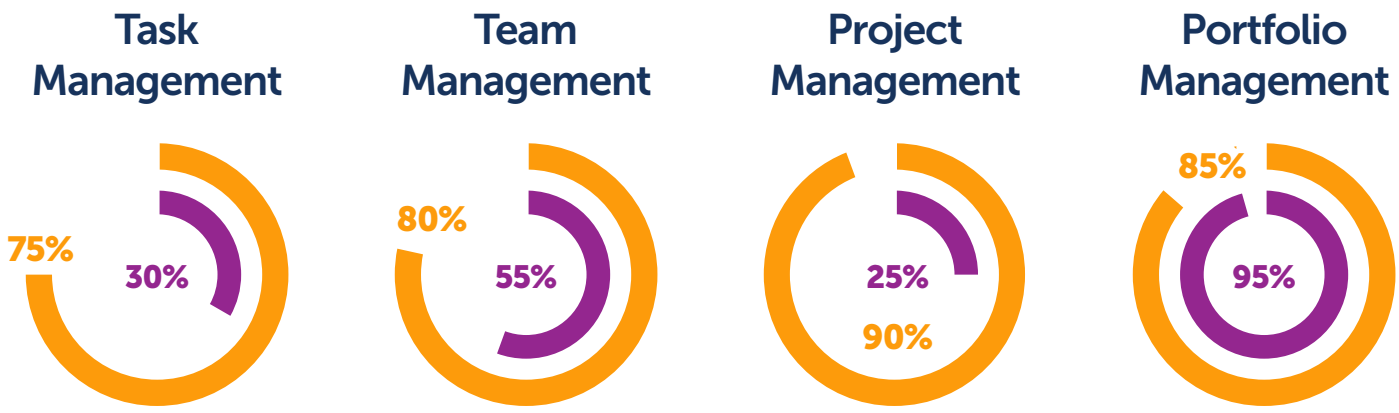
Competitor Analysis

ITM Platform vs ppo

ITM Platform
PROJECTS • PROGRAMS • PORTFOLIO

ppo
project portfolio office

Functional scope*



Highlights

- Only ITM Platform can provide value for all types of users across entire organizations
- Despite ppo's portfolio features, **friction for project managers** undermines data reliability

What's the value for users?*

- **ppo is inconvenient for project managers and team members** due to the lack of proper scheduling and a graphical interactive interface to plan projects
- Whether you manage **agile** teams or **predictive** projects, **ITM Platform offers** a **complete suite to plan, execute and monitor projects** in a unified portfolio.
- Team members benefit from **bespoken reporting tools: ITM Platform Teambot** for Slack and email, and ITM Platform's mobile app.

*Data based on market research internally developed by ITM Platform and its partner network.
